Election/Restrictions

1. A telephone call was made to Mr. Jody Bishop, Reg. No. 44034 on October 24,2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

- 2. Restriction to one of the following invention is required under 35 U.S.C. 121:
 - I. Claims 1-4 drawn to an error detection, classified in class 714/752.
- II. Claims 5-8 drawn to detecting a special data packet, classified in class 370/497.
- 3. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP 806.04, MPEP 808.01). In the instant case the different inventions have different modes of operation, different functions, and they have different effects.
- 4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art shown by their different classification because of their recognized divergent subject matter, and the search required for each Group I and
